

BRIDAL VEIL FALLS ICE CLIMBING RULES

Climbers are required to sign in at register and review rules and information before proceeding.

EMERGENCIES: In the event of emergency call 911

Climbers must avoid the Powerhouse area at the top of Bridal Veil Falls. Descent route is via ice or bolted anchors to right of climb (see route map).

APPROACH:

WARNING

The approach and descent for the Bridal Veil Falls ice flow will expose climbers to potentially hazardous avalanche terrain. Consult with local climbers and guides as to avalanche and route conditions before proceeding. Descent anchors may be snow or ice covered and climbers should be prepared to descend without them.

Access to the license area is limited to County Road K69. If you leave the county road, you are trespassing on private property.

The public recreational access license to Bridal Veil Falls is revocable, and any abuses or other violations of this area, could result in a climbing closure to the public.

Please respect this area and its access rules.
